

## DISCOVERY COMMUNICATIONS REPORTS THIRD QUARTER 2012 RESULTS

**Silver Spring, Maryland – November 6, 2012:** Discovery Communications, Inc. (“Discovery” or the “Company”) (NASDAQ: DISCA, DISCB, DISCK) today reported financial results for the third quarter ended September 30, 2012.

David Zaslav, Discovery’s President and Chief Executive Officer said, “Discovery delivered another quarter of strong operating results as a sustained focus on developing compelling content and leveraging it globally provided additional growth opportunities and continued financial momentum. In the U.S. we expanded market share, built new hits and capitalized on the ongoing strength of the ad market, while, internationally, we further leveraged the universal appeal of our programming and increased penetration of global pay-tv platforms to expand our unparalleled distribution footprint. Going forward we remain committed to thoughtfully investing in our brands and platforms while delivering sustained financial success and returning capital to our shareholders.”

### Third Quarter Results

Third quarter revenues of \$1,076 million were down slightly compared to the third quarter a year ago, as 7% growth at International Networks was offset by a 4% decline at U.S. Networks primarily due to additional revenues in the prior year from extending and expanding certain licensing agreements. Adjusted Operating Income Before Depreciation and Amortization <sup>(1)</sup> (“OIBDA”) grew 4% to \$498 million, driven by an 11% increase at International Networks and a 2% increase at U.S. Networks that included the impact of licensing agreements partially offset by higher content impairment costs in the prior year. Excluding the impact of foreign currency fluctuations, licensing agreements and content impairment costs, total company revenues increased 8% and Adjusted OIBDA increased 14%.

Third quarter net income from continuing operations available to Discovery Communications, Inc. stockholders of \$214 million (\$0.57 per diluted share) decreased \$26 million compared to \$240 million (\$0.60 per diluted share) for the third quarter a year ago as the strong operating performance in the current year was more than offset by the impact of foreign currency fluctuations, increased mark-to-market equity-based compensation, other and interest expense as well as higher taxes.

Free cash flow was \$353 million for the third quarter, an increase of \$39 million from the third quarter of 2011, as improved operating performance was partially offset by higher content investment and cash taxes. For the last twelve months, free cash flow increased 13% over the previous twelve month period. Free cash flow is defined as cash provided by operating activities less acquisitions of property and equipment.

<b>Revenues:</b>

Adjusted OIBDA Margin	58%	54%		59%	57%	

U.S. Networks' revenues in the third quarter of 2012 decreased to \$664 million as advertising growth was more than offset by a decline in distribution revenue. Advertising revenue increased 7% primarily as a result of higher delivery and increased pricing. Distribution revenue decreased 14% as higher rates and subscriber growth primarily from networks carried on the digital tier were more than offset by revenues from an extended and expanded licensing agreement in the third quarter of 2011. Excluding licensing revenues, distribution revenues grew 5% compared with the third quarter a year ago. Other revenue decreased \$2 million due to lower revenue from services provided to unconsolidated equity method investees.

Adjusted OIBDA increased 2% to \$386 million primarily reflecting 13% lower operating expenses mainly due to higher content impairments in the third quarter a year ago, partially offset by the impact of licensing agreements. Excluding the impact of licensing agreements as well as content impairments, Adjusted OIBDA increased 12% due to revenue growth as well as lower content amortization and marketing costs.

## **International Networks**

(dollars in millions)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2012	2011	Change	2012	2011	Change
Revenues:						
Distribution	\$ 249	\$ 230	8%	\$ 731	\$ 665	10%

Adjusted OIBDA	\$ 173	\$ 156	11%	\$ 520	\$ 473	10%
Adjusted OIBDA Margin	44%	43%		44%	45%	

International Networks' revenues for the third quarter increased 7% to \$390 million primarily led by distribution revenue growth of 8% and advertising revenue growth of 3%. Excluding the impact of foreign currency fluctuations, total revenues increased 15%. Distribution revenue, excluding foreign currency fluctuations as well as lower launch support amortization, grew 12% mainly from increased subscribers in Latin America and CEEMEA. Advertising revenue in local currency terms was up 10% during the third quarter primarily from higher pricing across most regions, particularly at free to air networks in Western Europe, as well as from revenues at new and rebranded networks. Other revenue was \$4 million higher primarily due to higher syndication sales.

Adjusted OIBDA increased 11% to \$173 million reflecting the 7% revenue growth, partially offset by a 1% increase in operating expenses. Excluding the impact of foreign currency, Adjusted OIBDA grew 16% as the 15% revenue growth was partially offset by higher operating expenses primarily due to increased personnel costs, higher content amortization and increased distribution costs.

## **Education**

Adjusted OIBDA Margin	20%	18%		20%	26%	

Education revenue for the third quarter increased 14% to \$25 million and Adjusted OIBDA increased to \$5 million, mainly reflecting higher assessment and professional development revenue as well as increased licensing fees.

## **Corporate and Eliminations**

For the third quarter of 2012 Adjusted OIBDA decreased \$8 million, primarily due to personnel expense.

Under the stock repurchase program, management is authorized to purchase shares from time to time through open market purchases at prevailing prices or privately negotiated transactions, subject to market conditions and other factors.

## **OTHER ITEMS**

During the third quarter of 2012, the Company sold its Creative Sound Services business, which resulted in a \$9 million loss from discontinued operations, net of taxes, for the quarter ended September 30, 2012. The results of the business are not material to the Company and have been reflected in the loss from discontinued operations, net of taxes, in the consolidated statements of operations for all periods presented. ## **FULL YEAR 2012 OUTLOOK**

Our outlook incorporates the sale of the Creative Sound Services business in the third quarter of 2012, current foreign exchange rates for revenues and expenses and the current share price for mark-to-market equity-based compensation calculations.

## **NON-GAAP FINANCIAL MEASURES**

### **Adjusted OIBDA and Free Cash Flow**

In addition to the results prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) provided in this release, the Company has presented Adjusted OIBDA and free cash flow. The Company evaluates the operating performance of its segments based on financial measures such as revenues and Adjusted OIBDA. Adjusted OIBDA is defined as revenues less costs of revenues and selling, general and administrative expenses excluding: (i) mark-to-market equity-based compensation, (ii) depreciation and amortization, (iii) amortization of deferred launch incentives, (iv) exit and restructuring charges, (v) certain impairment charges, and (vi) gains and losses on business and asset dispositions. The Company uses this measure to assess the operating results and performance of its segments, perform analytical comparisons, identify strategies to improve performance and allocate resources to each segment. The Company believes Adjusted OIBDA is relevant to investors because it allows them to analyze the operating performance of each segment using the same metric management uses. The Company excludes mark-to-market equity-based compensation, exit and restructuring charges, certain impairment charges, and gains and losses on business and asset dispositions from the calculation

of Adjusted OIBDA due to their volatility. The Company also excludes depreciation of fixed assets and amortization of intangible assets and deferred launch incentives, as these amounts do not represent cash payments in the current reporting period.

The Company defines free cash flow as cash provided by operating activities less acquisitions of property and equipment. The Company uses free cash flow as it believes it is an important indicator for management and investors of the Company's liquidity, including its ability to reduce debt, make strategic investments and return capital to stockholders.

Adjusted OIBDA and free cash flow are non-GAAP measures, and should be considered in addition to, and not as a substitute for, operating income, net income and other measures of financial performance reported in accordance with GAAP. Please review the supplemental financial schedules beginning on page 9 for reconciliations to GAAP measures.
